2. Project Delivery (such as property inspections and rehabilitation work write-ups) &dash \$60,000.00
3. Demolition &dash \$214,592.10
4. NSP 3 Administration &dash \$214,592.10

How Fund Use Addresses Market Conditions:

Funds will be used in these areas in two major ways:

One, to stop further decline in otherwise stable neighborhoods by purchasing, rehabilitating and demolishing properties in very serious disrepair. This will eliminate the opportunity for the neighborhoods to continue to decline. Two, this approach will turn around neighborhoods experiencing more serious decline by targeting multiple properties in very small neighborhood areas.

Ensuring Continued Affordability:

The City of Fort Lauderdale will require all recipients of NSP 3 funding to execute a mortgage and promissory note. These documents will be recorded in the Public Records and are enforceable mechanisms to ensure continued affordability. The period of affordability for NSP3 is fifteen (15) years.

Definition of Blighted Structure:

For the purposes of NSP3, a blighted structure has the same definition of the criteria for slum and blight in Florida Statutes Chapter 163.340, which states the following:

1. Building deterioration
2. Site deterioration or site deficiencies
3. Unsanitary and unsafe conditions and incompatible areas
4. Six or more ownership parcels per block
5. Buildings greater than 40 year of age
6. Presence of closed/vacant buildings
7. Presence of vacant lots
8. Buildings in violation of property maintenance code violations
9. Presence of buildings scheduled for demolition

Definition of Affordable Rents:

Affordable rents are defined as a rental rate at or below thirty percent (30%) of a family's gross income. All rental activities will remain affordable to income eligible families for a period no less than fifteen (15) years.

Housing Rehabilitation/New Construction Standards:

NSP3 REHABILITATION STANDARDS

All rehabilitated units must meet the minimum standards of the existing Florida Building Code, the Housing and Community Development Division's Property Rehabilitation Standards, the HUD Section 8 Existing Minimum Housing Quality Standard, and the Cost Effective Energy Conservation Standard.

Cost Effective Energy Conservation

General replacement of the interior of a building shall meet the standard for Energy Star Qualified New Homes. Other rehabilitation must meet these standards to the extent applicable to the work undertaken, e.g., replace older obsolete products and appliances with Energy Star labeled products. Water efficient toilets, showers, and faucets must be installed.

Vicinity Hiring:

Preference will be given to the greatest extent feasible toward vicinity hiring and the NSP3 contracts will contain specific language that will require developers to hire, certify and report all efforts undertaken including those of their subcontractors or contract with small businesses that are owned and operated by persons residing in the vicinity of NSP3 projects in accordance with the City's Section 3 Policy.

Procedures for Preferences for Affordable Rental Dev.:

The City Commission of the City of Fort Lauderdale elected not to undertake any rental activities.
